

# ANATOMY IN CLAY® LEARNING SYSTEM

*The Mind Cannot Forget What the Hands Have Learned™*

*Hands-On*

## PROFESSIONAL DEVELOPMENTS

*Anatomy Enrichment  
STEM Education  
Core Standards  
CEUs Available*

©2014 Jon Zahourek

Our Professional Development workshops provide educators with practical strategies created to improve anatomy education in the classroom. Focal points of the session include an anatomic review of the musculoskeletal system including points of origin and insertion, as well as other soft tissue structures such as the gastrointestinal, cardiovascular and neurological systems, demonstrating that *“The mind cannot forget what the hands have learned”*.™ The program will also offer insights into the effective use of clay to replicate additional structures of the body.

### *Who should attend?*

The ANATOMY IN CLAY® Learning System Professional Development workshops are comprehensive, hands-on experiences oriented for educators in college/university settings, community colleges, high school, middle school, and the body world.

### *Host your own!*

If you are unable to attend one of our professional developments, please watch our website for future workshop dates or tell us what area and dates work for you. Or ask us how to host your own!
