Dear New Career, Technical or Adult Education Teacher/Administrator,

On behalf of the West Virginia Association for Career and Technical Education, (also known as WVACTE), we would like to welcome you. WVACTE is the only Career and Technical Education Association in the state of West Virginia. We are not as large as other organizations but we do have benefits such as free Travel Accident and Dismemberment Insurance, the Techniques Magazine for Educators and State Conferences held each summer in Charleston, West Virginia. The State Conferences are an excellent opportunity to network with fellow educators from your occupational program area. We also survey CTE Teachers and assist them to find staff development that meets their needs.

In addition, the National Branch of our organization, (ACTE), constantly monitors any Congressional actions that will impact Career, Technical and Adult Education in any way. ACTE also provides legislative updates as well as national professional development opportunities, through regional and national conferences.

You may access the membership form online by going to: ACTEonline.org. West Virginia is a unified state and the national dues are \$80 along with \$10 dues for state association. Additional dues are available in each division. All dues are payroll deductible in most counties of West Virginia.

Please feel free to contact me for additional information at rcapling@access.k12.wv.us and we do hope that you will join and actively participate in our organization.

Sincerely,

Ruth Caplinger

State President
West Virginia Association of Career & Technical Education
