For the second year in a row, the Administration has proposed to *completely eliminate* the funding for the Carl D. Perkins Vocational and Technical Education Act. This means less professional development, less student support, less flexibility, and fewer career pathways. California *CTE programs stand to lose* over \$138 million dollars.\* Join the California Association for Career and Technical Education (CACTE) and help maintain the funding we need.

\* See "What if Perkins Disappeared" by Alisha Dixon Hyslop, in *Techniques*, April 2006, pg. 14.
