NATIONAL *Leadership Fellowship* PROGRAM

The ACTE Fellowship Program is your pathway to developing your leadership skills, policy knowledge and association management knowledge.

Association for Career and Technical Education

ACTE National Leadership Fellowship Program

Each year, ACTE selects five representatives, one from each ACTE Region, to develop their leadership skills. CTE educators need to be leaders in their schools and communities and need a leadership program—including policy and professional development in addition to general leadership training—that can meet their specific needs. The ACTE National Leadership Fellowship Program provides participants with the leadership development, policy knowledge and professional development that future leaders will need to succeed. **The purpose of the ACTE National Leadership Fellowship Program is to:**

- help establish a leadership development program for CTE educators in ACTE and assist individuals in further developing their leadership skills in CTE and their involvement in professional associations
- provide an opportunity for CTE educators to become familiar with and participate in the processes used by policymakers in the development and implementation of laws, regulations and other public policies at the local, state and federal levels
- identify, train and motivate a cadre of leaders who will continue to position ACTE as a leader in developing an educated, prepared, adaptable and competitive workforce
