

# EDUCATORS in ACTION SPOTLIGHT

## Who or what originally inspired you to get involved as a volunteer with ACTE?

I was inspired to join and get involved with ACTE as an additional means of professional development. If we encourage our students to be involved in CTSO's as their means of personal growth and development, shouldn't we as educators be involved in our professional development organizations?

## What's one big issue you want to help resolve or improve (in your career, in the field or in ACTE)?

I am currently working on the notion that ALL students must attend a four-year college/university. What I am teaching the students I meet with is that their career goal should dictate the education they seek.

## What are some of the major challenges facing this issue?

Parent perceptions, educator perceptions, Current school system assessment instruments

## What do you hope to accomplish through volunteering?

Greater insight of CTE and how to help others realize its benefits

## What's your greatest 'useless talent?'

Ability to make funny voices

## What are you reading right now?

Chasing the Lion

## What's your favorite food?

Spaghetti

## What's your favorite travel destination?

Anywhere to camp

## What's your favorite quote or motto?

There may be pain in the night but joy comes in the morning
