Great Oaks Career Services

Great Oaks Career Services is a premier Employment Resource Center for all students and alumni. We began at the start of the 2015-16 school year .

Research Team 2014-15

- ▶ A team of 6 associates from different aspects of Great Oaks came together during the 2014-15 school year to create a Job Placement Resource unlike anything else they have seen! They researched what was currently available and then created the ACE Resource Center. (Later became Great Oaks Career Services)

ACE Resource Center

- ▶ The premier Employment Resource Center to all students and alumni, as well as assist the district with accreditation data, credentialing information, and act as a liaison to all industry and education partners in the Greater Cincinnati area.

ACE Resource Center

- ▶ The results of this design will be improved quality and validated data, one source of data for compliance, improved positive program placement, improved employer satisfaction, and a strong resource for BIAC membership for CTE instructors.
