Using Google Classroom to Teach Personal Finance Online

Colorado B Room

Presenter: Gina Green, Bolivar High School

Description: Tips and techniques for teaching Personal Finance online using Google Classroom will be shared. This will be most useful for teachers at Google schools.

8:00 a.m. - 9:00 a.m.

Show Me the Infographic

Illinois Room

Presenter: Robin Robertson, Republic High School

Description: From the moment we wake up, we begin to use both sides of our brain in tandem, but so often our classrooms suggest the opposite: numbers and logic for left brain learners, visual and music for right brain learners. Implement the use of infographics in your classroom and learn to create with this wonderful tool to reach all learners. Infographics are artwork for the brain. These visuals images often represent complicated information in a simplified form and help students make sense of data, research, or complex ideas. They are even more effective when students create them. This session will lead you through effective tools to balance writing instruction with creating infographics in your classroom no matter what your content area. This session will lead you through writing and digital activities that you can include in your own classroom to help students create the visual design, content (data), and knowledge to build an effective infographic for all audiences in any content area. This session will be most effective with access to technology. **Please bring your own, fully-charged, personal device or laptop computer.**

WEDNESDAY, JULY 22 (CONT.)

8:00 a.m. - 9:00 a.m.

What's STEM Got to Do With "It?"

Colorado A Room

Presenter: Patricia Palmer, UMKC Center for Economic Education

Description: Stats don't lie ... preparing this generation of students for College and insuring Career Readiness calls for cross-curriculum planning and preparation. The need for specialized training and skills is the key to the health of our economy and the stepping stones to life's work. Build the alliance with your STEM colleagues and put your students ahead of the crowd by building in a solid business-ready curriculum that not only complements the STEM curriculum but gives your graduates a strong business foundation to be able to maximize their talents and run a business, too.

8:00 a.m. - 9:00 a.m.

Let Go and Let Them Learn (Project-based Learning)

Kansas Room

Presenter: Susan Schuette, MBA Research

Description: Wish your students would take more responsibility for their work? One way to encourage that is to implement active learning strategies, such as project-based learning. *High School of Business*[™] teachers are discovering lots of pent-up excitement with their business students as they transition to a modified project-based strategy. Their focus on challenging students to solve complex problems, and then getting out of their way, has led to a whole new level of engagement. In this session:

- Learn to work as a consultant as students take responsibility for their projects.
- Gain confidence with the idea of spending less time in front of your students and more time at their sides.
- Share some of the true nuts-and-bolts of the project-based concept, including concessions to needed testing and other more traditional pedagogies.
- Share implementation ideas for making the concept work in almost any school.

BASKET RAFFLE

Tickets will be sold in the University Plaza on Tuesday and Wednesday. Winners will be drawn Wednesday at 3:00 p.m.
