## Pre-Conference Session

### *Love U2<sup>®</sup>: Getting Smarter About Relationships, Babies, and Marriage*

**Presenter:**

Dr. Bob Tures, Dibble Fund Trainer, Flagstaff, Arizona

**Target Audience:**

Middle/junior high and high school family and consumer sciences instructors in comprehensive family and consumer sciences programs.

**Brief Summary of Session:**

Love U2<sup>®</sup>: Getting Smarter about Relationships, Babies, and Marriage is a new kind of curriculum for teens from the Dibble Fund. Its goal is to help young people acquire practical skills and useful knowledge for forming emotionally healthy, mutually respectful and ethically sound relationships. But Love U2<sup>®</sup> is about more than skills or facts. It focuses on helping teens craft a North Star — a vision of healthy relationships — that will guide their own behavior. Love U2<sup>®</sup> aims at giving teens a positive model they can aspire to for committed and healthy love relationships. This curriculum is about what teens can hope to achieve, not just what they must try to avoid.

This workshop will engage you in sample activities, review current research and evaluations of the curriculum/program;

and lastly, instill confidence and enthusiasm for teaching these skills to your students!

This session will show you how to implement, utilize, and assess power writing in your classroom. After collaboration with district language arts teachers, the session presenter started using this simple power writing technique. Across the board, all students, including ESOL & IEP students, were able to improve their writing skills by the end of the semester. This is a tool that you will be able to put into practice when you return to your classroom in the fall.
