MSCA (COUNSELOR) DIVISION AGENDA (CONT.)

TUESDAY, JULY 26 (CONT.)

GENERAL SESSIONS (CONT.)

1:30 p.m. - 2:10 p.m. (Cont.)

"Making Mountains out of Molehills - The Art of Moving Small Words to Lofty Heights"

University Plaza Convention Center - Nebraska Room

Presenter: Andrew McCrea

This workshop is about how educators can improve their own communication skills and how they can help instruct students in improved speaking.

Problem-Based Learning

University Plaza Convention Center - Arizona Room

Presenter: Marty Sugerik

This session provides a process for design, implementation, and assessment of authentic projects that target problem-solving in our workforce. Projects do not exist in a vacuum and therefore require overt modeling, teaching, and assessment of academic, technical, and employability (College and Career Ready) skills and standards. Participants will see exemplars from around the country that have been strategically designed and customized to meet specific needs of career pathway courses.

2:40 p.m. - 3:20 p.m.

Google Intermediate - Using Google Apps and Extensions in the CTE Classroom

EXPO Center - Hall C – 635 St. Louis Street

Presenter: Darci Friberg, Fair Grove Schools

This workshop will showcase educational Google apps and extensions to create the ultimate student-centered learning environment for the CTE classroom. This workshop is designed for classrooms of all types, including teachers with limited access to technology. Attendees will receive a resource list of apps and extensions to try in their classroom.

"Who am I? Who are You?"

University Plaza Convention Center - Nebraska Room

Presenter: Andrew McCrea

This workshop explores personal leadership traits and how those traits influence how we deal with change, and how we work with/instruct others.

TUESDAY, JULY 26 (CONT.)

GENERAL SESSIONS (CONT.)

2:40 p.m. - 3:20 p.m. (Cont.)

It's a Web 2.0 World - Engage, Interact, Learn, Publish!

University Plaza Convention Center - Illinois Room

Presenter: Gina McLachlan

How do students learn today? How do they interact with information and each other? What skills do today's students need in order to be successful tomorrow? What tools and environments do students have at their disposal? How can educators tap those tools and environments to provide opportunities for students to demonstrate what they know and can do in the target language? Come explore a variety of technologies that enable world language learners to experience the interpersonal, interpretive, and presentational modes of communication!

This workshop will feature interactive websites that allow teachers and students to organize resources, easily find new materials, create a professional learning community, and become a publisher of content - all with a few clicks and a little imagination! Find out how Web 2.0 technologies can enhance your classroom! What makes a Web 2.0 website different from a Web 1.0 website is the ability of the website visitor to create new, personalized, customized content. There are a myriad of websites, some targeted specifically to teachers and students, others not, that provide tremendous opportunity to enrich teaching and learning while connecting with others. This session will provide an overview of several Web 2.0 websites and services that have been used successfully in world language classrooms, and those uses and strategies will be shared while demonstrating the ease with which the content can be created.

Google Advanced - Grading Millennial Learners

EXPO Center - Hall C – 635 St. Louis Street

Presenters: Kristi Hodson, Carthage High School and Darci Friberg, Fair Grove High School

Using Google Apps for Education (GAPE) and Google add-ons, teachers will learn how to create, post, and grade electronic assignments and tests. In addition to saving time, there are many benefits of using Google apps to assess millennial learners: instant feedback for learners, tools for peer review, assessment data computed automatically, prepared sub-plans, tools to facilitate a flipped classroom, and preparing students for post-secondary jobs. Participants should be teachers who are already using Google Classroom; this is not a workshop for beginning users of Google or Google Classroom.

How Do You Spell FFA and Other Musings From A Retired Career Tech Educator

University Plaza Convention Center - Nebraska Room

Speaker: John Rummel, Realtor, United Country Stockton Lake Properties

A light-hearted, inspirational, and serious look at our roles as teachers in general and Career Tech teachers specifically as told by John Rummel. John is a retired Agriculture Education teacher with 27 years teaching experience. He says it will be well worth the price of admission to attend his workshop!

Using Bell Ringers in the CTE Classroom

University Plaza Convention Center - Illinois Room

Presenters: Dr. Michelle Conrad, Associate Professor, Central MO State University, Warrensburg; and Bing Boettner, Health Science Technology Instructor, Northwest Technical School, Maryville

Join Dr. Conrad and Bing Boettner as they share their collaborative work on the use of bell ringers in the CTE classroom. Graphic organizers, puzzles, sustained silent reading, and newspapers/technical magazines are just a few of the tactics attendees will learn about during this session.

College Connections: Fostering College and Career Readiness Through Strategic Partnerships Between High Schools and Postsecondary Institutions

Location: Kalahari

Presenter: Renee Henderson, Admissions and Outreach Coordinator, State Fair Community College

Facilitator: Stacie Wild

Description: In 2013, the office of College and Career Readiness at State Fair Community College began assessing counselors. Their question was simple, What kind of incentives can we provide? The counselor's answers were consistent: we don't need incentives; we need help. After months of research and a complete overhaul of the administrative structure of two key offices on the SFCC campus, the College Connections program launched in fall 2014. Find out what happened when one college admissions team stepped away from the traditional lunchroom visits and instead focused their efforts on building and maintain lasting relationships with students, counselors and school districts for the benefit of all stakeholders involved.

9:00 a.m. - 9:50 a.m.

Building Relationships Between Sending Schools and Area Career Centers

Location: Kalahari

Presenter: Cindy Thompson, School Counselor/VRE, Gibson Technical Center

Facilitator: Frank North

Description: School counselors working in area career centers are in a position to facilitate collaborative relationships with their sending schools that will enhance efforts to help all students achieve post-secondary college and career success. High school counselors often have very little time to spend on career counseling due to large caseloads and the need to focus on academic achievement and responsive services. Career Center counselors have the knowledge and skills to act as a resource in the use of Career Clusters Models to guide students in choosing the courses they should take in high school to reach their post-secondary goals.

WEDNESDAY, JULY 27 (CONT.)

WEDNESDAY, JULY 27 (CONT.)

12:00 p.m. - 1:30 p.m.

MACS/MSCA Luncheon

Location: Maui

Presenter: Gina Smith, Technology Centers that Work, Southern Regional Education Board

Description: CTE professionals wear many hats that range from working directly with students, working with teachers who are teaching students, and working with other professionals who impact the lives and the futures of their students. Many outsiders don't realize how these complex roles play a major part in educating students and preparing them for college and careers. Multiple Missouri schools have adopted initiatives such as Technology Centers that Work, High Schools that Work, and Making Middle Grades Work. Join us at lunch for an informative, helpful discussion about how CTE professionals can use these initiatives and access resources to help make a stronger impact on the success of their students.
