

Mick Normington Bio

Mick Normington is a labor economist who researches the changing job market and interviews corporate presidents, hiring managers and human resources directors about the kinds of workers and skills they need. As a business instructor for Lee College of Houston, he teaches classes on human resources, labor economics and management. Also an author, he co-wrote *Working Texas Style*, which is about the changing economy of Texas after the Great Recession, and wrote the follow-up book, *An Atmosphere of Enterprise*, which covers job creation trends. Normington will discuss the changing job market and economy and shed some light on how those changes relate to individual career paths
