Career and Technical Education in Virginia

- At the secondary level, CTE is delivered in more than 700 middle and high schools, 49 division centers, 22 Governor’s STEM Academies, 9 Governor's Health Science Academies and 9 jointly operated regional CTE centers, with dual enrollment options offered by 111 school divisions.
- At the postsecondary level, CTE is delivered through the state’s community college system.

Exemplary CTE Programs in Virginia

- Since the inception of the Governor's STEM Academies, students are prepared for high-demand, high-wage, high-skill careers through partnerships among school divisions, postsecondary institutions, and business and industry. The [Governor's STEM Academy at George C. Marshall High School](http://www.doe.virginia.gov/instruction/career_technical/index.shtml) in Fairfax County is an exemplary program. The academy offers premium elective programs in engineering and technology pathways to interested students in grades 9-12. Many students earn recognized industry certifications as well as college credit through dual enrollment, and participate in valuable career experiences through business and industry partnerships. Students work independently and collaboratively in project-based learning environments that encourage finding creative solutions to authentic and complex problems. ([Information from the Virginia Department of Education, Office of Career and Technical Education](http://www.doe.virginia.gov/instruction/career_technical/index.shtml))

- Denbigh High School's Aviation Academy is a nationally recognized STEM site with a focus on piloting, aircraft maintenance, engineering and aviation security/safety to address the growing shortage of aviation personnel. The mission is to provide a quality education that will maximize the potential of all students by providing them with the knowledge, skillsets, experiences and values needed in the 21st-century workplace. Located in the old passenger terminal at the Newport News-Williamsburg International Airport, the Aviation Academy was created in 1995 to encourage students to learn more about the aviation profession and to continue their pursuit of related careers. ([Information from Newport News Public Schools](http://www.newportnewspublicschools.org) and [Virginia Capitol Connections Quarterly Magazine](http://www.virginiacapitolconnections.com))

Virginia serves 294,402 (unduplicated) and 639,840 (duplicated) middle and high school CTE students ([Virginia ACTE 2017-2018](http://www.doe.virginia.gov/instruction/career_technical/index.shtml)) and 92,245 postsecondary CTE students ([OCTAE 2016-2017](http://www.doe.virginia.gov/instruction/career_technical/index.shtml)).

In Fiscal Year 2019, Virginia received an estimated $28,311,679 in federal Perkins funding—$1.56 million more than in 2018.

In Virginia, in school year 2017-2018:
- 159,306 industry credentials were earned
- 41,427 students were CTE Completers
- 51% of CTE Completers earned Advanced Studies Diplomas
- 72% of 2017 CTE graduates enrolled in postsecondary education
