Standards

Definition

Students will understand and demonstrate the personal traits that encourage productivity, quality work, self-initiative, and employability. Applies personal traits to all situations. Understand that these traits must be practiced and developed.

Students will understand and demonstrate how to search for and locate information for any given subject. Understand that research is an integral part of everyday life and work, and that effective research skills enhance work and personal life.

Students will understand how to critically think and objectively analyze and reason through information using primary and secondary sources, empirical data, experience and common sense.

Students will understand how to effectively relate, apply, and adapt information and experiences to any personal, workplace, or educational situation.

Students will understand and demonstrate how to produce results by doing, recording, communicating, acting and leading from information studied and learned, and do so in verbal and written communications, and in both group and individual situations.
