

INTERIOR AGRICULTURAL INSTITUTE

PROFESSIONAL DEVELOPMENT OPPORTUNITY

Summer 2020

Tuesday, May 26 to
Saturday, May 30

8.30am to 4.30pm daily

What is included for you?

- Complimentary accommodation in local hotel.
- Daily per diem to cover food costs during the week.
- Travel costs covered to and from the community of Tok.
- One portable hydroponic unit and supporting materials and curriculum.
- Three UAF credits.

**Alaska Gateway School District
invites you to apply to attend a week
long training workshop held in the
community of Tok**

AGSD is a recipient of a Carl D. Perkins professional development grant. This grant allows us to facilitate a training workshop for teachers across the interior of Alaska. Participants will meet in Tok School and access the district's industrial greenhouse, modern hydroponic unit and work with the Charlie Cart, a mobile kitchen offering lessons from the greenhouse-to-table.

This opportunity is suitable for;

- Career and Technical Education teachers,
- Teachers supporting learning within agricultural fields and Arctic Agribusiness.

The institute will offer personalized learning for each applicant, assisting individuals to create opportunities in their school environments.

Workshop Objectives

- Gain working knowledge of greenhouse and hydroponic operation through small group instruction and hands-on lab experiences.
- Build a portable hydroponic system
- Utilize a culinary art curriculum with students
