1:00-4:00 pm  Preconference Workshop

Presenter: Shannon K. Barry, PhD, NCSP, BCBA
Title: Recognizing and Supporting Students’ Mental Health Needs Across School Settings
The main focus of this session will be the role of administrators in creating and maintaining systems that address mental health supports in schools. There will be an emphasis on supporting students' mental health needs within and across all school settings. Included will be common warning signs of and behaviors related to prevalent mental health conditions (e.g. depression, anxiety, ADHD, trauma, oppositional/defiant behaviors), and ways for all school staff to respond to such signs, as well as informally assess the need for more intervention. Strategies, best practices, and systems for school staff to implement so as to create supportive school environments for the mental health and social-emotional-behavioral needs of all students will also be discussed.
