

Questions to Consider for Collaboration

High-quality programs are achieved through collaboration to meet industry standards and strong positive outcomes

CTE	TEACHERS	COUNSELORS	STUDENT
ACCESS			
Do my students know what labor market options match their goals?	What is available for Career Guidance & Recruitment Activities?	How can we plan for & schedule courses & Pathway options?	How can I learn about CTE Options that interest me?
What support services exist for accelerated credit, Work-Based Learning?	What Pathway options match the student's interests & preferences, strengths & needs?	What support services are available for CTE opportunities?	How can I prepare for courses that match my strengths & goals?
EQUITY			
What standards & content will the student need to demonstrate?	What academic levels & support services will the student need?	What career exploration & career guidance can we promote?	Who do I talk to about extra support in this class or on the job?
Is there equity in my instruction, curriculum, materials, & assessments?	What strategies or accommodations are built into the course?	What post K12 school & support services options can we encourage?	How can I request accommodations in this class or on the job?
INCLUSION			
What MTSS & community support services are available?	Are we compliant with IDEA, PERKINS & other applicable laws?	What MTSS or community support services can we consider?	What will I learn & what strategies can I use to be successful?
How do students choose a Pathway & meet Local Level of Performance?	What UDL strategies or accommodations are part of the content?	What pre-requisites & recruitment activities can we promote?	How can I meet industry standards for what I think is a good match for me?
INDUSTRY STANDARDS
