ACTE DIVISIONS
Program Areas of Interest for ACTE’s Members

Trade and Industrial Education
Influences national policy, promotes high standards and develops sound practices across all professional standards across the full spectrum of CTE, and provides professional development and networking opportunities for our members.

Postsecondary, Adult and Career Education
Provides high-quality professional development to the diverse educators serving in CTE fields.

New and Related Services
Includes more than 11 special interest sections, such as Work-Based Learning, Instructional Management & Materials, Special Populations, ROTC and more.

Health Science Education
Educates today's students for tomorrow's health care community. Our members include leaders in all health careers as nursing, dental hygiene and medical technician professions.

Counseling and Career Development Division
Designs, implements, and evaluates career development programming to support CTE, career decision making and career pathways in a variety of K-16 settings. Includes School-to-Work/Careers section.

Agricultural Education
Includes agricultural science teachers (K-16) who teach students agricultural concepts. Our mission is to prepare students for successful careers in the global agriculture and natural resources sectors.

Technology Education
Prepares individuals for STEM-related careers, including engineering, technology, design and applied aspects of science and mathematics. Includes STEM, the Arts, and Information Technology sections.

Marketing Education
Prepares students for careers in marketing, including advertising, sales, branding, promotion and media relations.

Business Education
Educates today’s students for tomorrow’s business community. Our members include business education teachers, business administration teachers, business development professionals, financial officers, accountants and marketers.

Family and Consumer Sciences Education
Empowers individuals and families across their life span to manage the challenges of living and working in a diverse global society.
