HOSA Is a Pipeline for Future Health Professionals

Our Mission
Empower HOSA-Future Health Professionals to become leaders in the global health community through education, collaboration, and experience.

Learn, Lead, Serve and Innovate
HOSA is a student-led global organization that provides a unique program of leadership development, motivation, and recognition exclusively for middle school, secondary, postsecondary, and collegiate students enrolled in health and biomedical sciences.

The rapidly changing health industry needs dedicated workers who, in addition to their technical skills, are people-oriented and capable of playing a leader or follower role as a member of a health team. HOSA recognizes the importance of providing students with instruction beyond the technical skills required for entry into the health field and plays a unique role in preparing students for higher education and entry-level certification (EMT, CNA, etc.).

HOSA provides opportunities for students to develop, practice and refine their technical, leadership, and teamwork skills to achieve a seamless transition from education to a career.

Join us at the International Leadership Conference.
Join over 12,000 HOSA members, advisors, health industry leaders, judges and VIPs at the 2020 International Leadership Conference at George R. Brown Convention Center in Houston, Texas, June 24–27. More information is available at ilc.hosa.org.
HOSA is 100% health!
