

CTE in Kansas

54% of jobs in Kansas require skills training—more education than high school but less than a four-year degree.

Career and technical education (CTE) programs can develop this workforce, particularly in Kansas's key industries, like:

- advanced manufacturing
- agriculture
- aerospace and defense
- energy and natural resources

99% of Kansas secondary CTE concentrators met performance goals for technical skills in 2018.

Many students are already enrolled in CTE in Kansas, developing technical, academic and employability skills and engaging in work-based experiences with industry partners. During the 2018-19 school year, Kansas had:

145,916

secondary CTE participants

23,106

postsecondary CTE participants

These youth and adult learners in CTE programs are more engaged, graduate high school at higher rates, earn industry-recognized credentials, and have rewarding and family-sustaining careers.

Four-year cohort graduation rate in Kansas (2017-18)

16,804

postsecondary credentials earned by CTE students in Kansas (2016-17)

More investment is needed to scale CTE programs across Kansas to ensure that all learners, including historically underserved learners, have access to high-quality CTE programs in high-skill, high-wage and in-demand career fields.

CTE: Good for Students, Good for Business, Good for Communities!
