2021 Schedule at a Glance
The conference will contain a mix of live presentations and pre-recorded concurrent sessions.

VENDORS AS PRESENTERS
If a vendor wants to present a concurrent session, they need to do this along with an educator (member) who can offer a case study on how they have accomplished something or highlighted a best practice. Our audience does not want a sales pitch in concurrent sessions, but rather they want to learn how to improve their programs and like things that they can take away without purchasing or paying for something like products and services.

You do not need to attend in-person to present at the conference, but presenters need to register for the conference. All presentations will be run though zoom for all attendees (F2F and virtual). Most presentations (30) will be live for a maximum of 30 minutes. Virtual sessions (taped) will be shown during the last concurrent session on the first day or the first concurrent session on the second day. Additional time during the 50 minute session will be available for live interaction with participants.
