Fellow CTE administrators:

As we celebrate a new year, I want to reflect and thank everyone for a great (and first-ever) hybrid CareerTech VISION conference. It was wonderful to visit and connect with those who were able to attend the conference in person, as well as my appreciation to those attending the conference virtually. We had a terrific Business Meeting and Opening Session, and my thanks to Policy Committee members Julie Pack and Martin Hanley for leading the attendees through the engaging “wall-talk” activity.

The ACTE staff and board are focusing on the various strands of the Strategic Plan, and I have asked to be part of the Advocacy and Awareness working group. I have always believed that one of the strongest benefits of ACTE membership is the advocacy efforts of the organization in securing policy and funding support to advance CTE. The upcoming National Policy Seminar (March 21–23) is a terrific opportunity for members to learn more about the advocacy efforts and strategies for you to become actively involved at the state and national level. If you have not attended the National Policy Seminar in the past, you will find the conference and advocacy process very informational and enlightening.

Please take the time to review the newsletter items below, which include a link to a ACTE publication series supported by Xello on the partnership between Northrop Grumman and Grand Forks Public Schools (my district). Happy New Year and my very best to each of you, your staff, and your students for a successful 2022!

Volunteers Needed
