

Attention Educators!

Looking for new lessons and project ideas?
Do you need quick access to supplemental materials or sub plans?
Interested in what others are teaching in classrooms across Alaska?

Alaska Education Exchange (Akee) is a robust digital learning resource for educational partners, teachers, schools, and districts.

The goal of Akee is to provide a place for networking and sharing resources to enhance learning experiences for Alaska students.

Resources include:

- Instructional materials (lesson plans, projects, substitute plans, and group activities)
- Leadership training and development
- Professional development
- Groups and discussions to help you network with other Alaska educators

It is a free resource that is strengthened by each of us sharing our best lessons, sub plans, projects, and resources to benefit each other in the classroom. Sharing materials on Akee is a user-friendly process!

Need a CEU for certification? Complete three Akee badges for one CEU.
