1:00

Host a Career Fair Like a Boss

Anessa Garner, Scott Regional Technology Center

Using technology and other agency's to streamline the planning and execution of your next Career Expo.

2:00

Taking your Passions and Strengths and turning them into Work Based Learning Opportunities for Students via a School-Based Enterprise

Carmel Dare, Rolla Technical Institute

Students can sense when a particular focus is your passion. Passion in education helps take learning to a synthesis level in students and ourselves.

3:00

CTE and a Dee Oh Gee

Stacie Fohn and Michelle Brinkley, Lebanon Technology and Career Center

Our school has a board policy requiring therapy dogs in classrooms be CARES certified. Find out about our journey and meet Bunker, our Lebanon High School/Lebanon Technology and Career Center therapy dog.

1:00

Facilitating Opportunities for Special Populations in High School CTE

Amy Herman, DESE and SCRDC

The United States is experiencing a skilled labor shortage and persons with disabilities are twice as likely to be unemployed as persons without a disability. Come learn how to get the right student in the right seat at your high school career center "The Strengthening Career and Technical Education (CTE) for the 21st Century Act (Perkins V) emphasizes the development of employability skills of all students through CTE programs, including special populations, such as individuals with disabilities (Cai, 2019)." Missouri high school students, with special needs,

that attend CTE are 20% more likely to graduate and have a 25% higher post placement rate than students with disabilities that do not attend CTE. This presentation will provide administrators, counselors, special education educators, and CTE instructors with knowledge needed to facilitate opportunities for students in a CTE setting. Come learn what CTE is, what the data says, what the CTE placement process should look like and learn about accommodations and modifications in CTE.

2:00

Chat GPT in Education

Ashley Brown, East Newton

A.I. is everywhere. Students are talking about it, businesses are talking about it, and educators across the nation are talking about it. Some find its application to be good, some bad, and some find it downright scary. This presentation is to introduce you to it, share some ways it can be applied to the educational setting, and to challenge you to find how it might fit into your world. Artificial Intelligence is not going away... so what can we do as educators to embrace it, learn from it, and prepare ourselves for its presence in our world?

Stop Reading Off Your Powerpoint

Crissy Lauterbach, Contact Learning

If you are tired of students reading off their Power Points, not facing the audience, and not being a master of their content in a presentation, then this interactive seminar is for you! Through the power of Pecha Kucha my students' presentations have been elevated to a professional level with concise information, strong visuals, and impeccable timing. Instructors will walk away with a mini lesson on Pecha Kucha that will enhance any lab or CTSO presentation. Be prepared to laugh, to work, and to change your own presentation game.

2:00

Missouri Works - Utilizing Registered Youth Apprenticeships in High Schools

Betty Glasgow, Retired Youth Apprenticeship Coordinator

In this session, you will discover the steps from beginning to end of setting up Registered Youth Apprenticeships. You will learn steps taken, as well as successes and failures of what has worked and what did not work from an apprenticeship program that was recently recognized as one of six in the nation by IWSI America and The Urban Institute.

3:00

It Is Not Classroom Flip Cup!

Crissy Lauterbach, Contact Learning

Learn how to engage students with three ready to use activities that teach leadership, communication, and team work. Take students on a deeper exploration of their transferable skills with simple solo cups and balloons. Be ready to solve challenges and have some fun along the way!

## **Oasis Hotel and Convention Center EXPO**

1:00-3:00

Get Certified with iCEV!

Enhance your resume, keep your skills current, and validate your knowledge with an Industry Certification. Industry Certifications hosted on iCEV come with optional, comprehensive preparation content. MOACTE attendees can earn one of iCEV's Industry Certifications for free by taking the exam at the conference during our certification event. Registration is required by July 10, 2023, and includes access to certification preparation materials for one of iCEV's Industry Certifications. Are you interested, but missed the deadline? Come by the iCEV booth at MOACTE to learn more about Industry Certifications hosted by iCEV and how you can earn one for free!
