

Hi, Matthew Speno here!

I am honored to serve the ACTE community as the CTE for All Section Lead. Since assuming this role, I have had the pleasure of working with many of you to ensure the demographic groups that make up Special Populations have representation and support within CTE. As you may have noticed, the name of our section has changed from Special Populations to CTE for All. Thank you to all who were part of this work to provide CTE colleagues with a comprehensive section that will ensure CTE is a pathway accessible to all learners!

Our name change signifies an intentional action to ensure ACTE embeds the values of inclusion, accessibility, equity, and diversity in its work at the organizational level and, in our work within the CTE community. I look forward to working with you to ensure our work for the CTE community is based upon practices that integrate Inclusion, Access, Equity, and Diversity.

You and I know the inherent worth of learning a vocational trade, so... please join me to scream “CTE for All” from the rooftops! Please let me know how I can help!

Best,

Matthew
