D. Region/Division Concerns

What are your concerns for your Region/Division specifically	What are the implications for ACTE?	In what capacity can ACTE assist in addressing this issue?
Concerns about VP-Elect candidates, which exists in almost every division, are expected to complete this as a non-funded shadow year	Would propose that ACTE funds the VP-Elect positions at the same level as the other elected positions	Financial support for treating the VP-Elects no different than the VP when it comes to conference/meeting attendance (travel costs, registrations, etc.) If we want to continue to grow our pool of leaders, this is an artificial barrier that exists that could deter quality candidates from running. This topic has also emerged in the past and warrants a board discussion and potential action.

E. Items to be placed on the Board Agenda for Discussion

(Only include items that require Board discussion or action. These will be placed on the Board meeting agenda.)

Please remember the importance of engagement of members during this time and let ACTE know how we can help engaging your members with you! Please also let us know how you have engaged ACTE members within the past 4 months. Indicate if the work falls under any of the Strategic Plan.

There have been limited opportunities to directly engage ACTE members within the past 4 months. However, I continue to represent ACTE members through my professional associations and meetings. For example, I represent ACTE on the National Council for Agricultural Education. During our fall meeting (October. 3 & 5), I communicated to the members the recent activities of the Association and secured and responded to questions, inputs, and comments. In addition, I have also supplied relevant ACTE information to the Monday Morning Monitor editor, a broadly distributed electronic news feed for agricultural education.

We anticipate highlighting the innovations in ACTE's publications, blogs, and webinars and other similar activities. Please highlight any recent innovative ideas within your Region or Division.

At this point, I am unaware of program/teacher innovation highlights within the Region or Division. However, I will highlight a teacher-recruitment program in AZ that seeks to engage SBAE teachers, Alumni, the State Dept of Education, the state FFA Foundation, and the AZ Teacher Education University (UA) in collectively securing names of high school jr/sr students who demonstration prospective teacher-like qualities. Each year, the University solicits student names from SBAE teachers to begin cultivating a recruitment relationship with students, by recognizing each with a congratulatory letter, certificate, and pin. Students recognize at their local FFA Banquet in a public way allowing peers, parents, and community members to acknowledge and celebrate the recognition. Other members of AZ Team Ag Ed also send a congratulatory letter to students. After this, a two year courtship occurs with these students by the University to inform the student about the benefits and rewards of teaching and highlight the financial resources available. This is repeated yearly.

H. Succession Planning

Do you have any information you wish you had been provided during your new Board Orientation (what you know now that you wish you had known then)?

Succession Planning: I am about to complete a full year as VP for Agricultural Education Division. Within the Agricultural Education Division, there is a rotation schedule for ascending into the VP position. The position rotates among three agricultural education groups, teacher education (AAAE), state staff/supervision (NASAE) and school-based agricultural education teachers NAAE. I replaced Scott Stone (NAAE) and currently represent the AAAE group. Next in the rotation is the NASAE group. I will be reaching out to the NASAE leadership to make them aware of their rotation in the ACTE VP position in the next 12 months to secure a minimum of two candidates for election.

On behalf of the FCS Education Division, I obtained a few more partnerships- CCFCS to sponsor newsletters and the Award session. Reality Works is giving away a \$1000 computerized baby to one of the FCS attendees, and LeadFCS is sponsoring the keynote session. These are partnerships I would like to maintain and build upon for FCS.

Encouraging membership via a Podcast, talking with teachers.

Attending 2 CTE conferences in Iowa.

List the strategies that have been completed.

Continued progress on all strategies of the plan. Specific focus has been on:

As the VP of the FCS Education Division, I have:

Provided information for the Division newsletters

Recorded and ACTE sent out an invite to the 2022 ACTE CareerTech Vision conference

Promoted ACTE members within the Waukee Community School District in Waukee, IA

Attended the Iowa FCSE annual state conference and provided a welcome at the general session

Attended the Iowa ACTE conference

Recorded a PodCast for Connected FCSed- I spoke about my journey in leadership, ACTE membership, being a leader in ACTE or your division, FCS Ed awards, etc.

Recruited new members to the Policy Committee

I'm not sure if anything has been done on it, but Barb Scully does a great job with her Connected FCSed Podcast. It might be a cool think to highlight her and the podcast.

Iowa's Intermediary Network is #awesome for WBL experiences and the work they have done to help connect experiences to the ICAP.

M. Succession Planning

Do you have any information you wish you had been provided during your new Board Orientation (what you know now that you wish you had known then)?

Honestly I am still trying to figure things out. I need calendar due dates with notifications, reminders of when things are due, ideas for best practices as a Division VP. When all of the groups came in to talk with us in July it was easy to listen to them, but 3 months later I don't remember half of what was told to me- could we get monthly "top 10 things to remember/do" updates?

N. Region/Division Concerns

What are your concerns for your Region/Division specifically	What are the implications for ACTE?	In what capacity can ACTE assist in addressing this issue?
Seem to be missing a lot of information that Carol W. submitted to ACTE- especially for the website.	Need to update the FCS Division webpage and the NATFCS webpage.	Work with me to make updates- I will create a document
Membership & Communication- Ensuring that our Division membership is receiving communications from ACTE based on FCS info.	Something happened to FCS member accounts because I have several people that have reached out saying that they are not receiving Division newsletters and sometimes other communication from ACTE. How can members be reached if their notification settings in their profile say they don't want to receive info from ACTE- but they never selected	Help solve the mystery of why random accounts have communication updates to their accounts when the member has not changed them.

C. Region/Division Concerns

What are your concerns for your Region/Division specifically	What are the implications for ACTE?	In what capacity can ACTE assist in addressing this issue?
--	-------------------------------------	--

A concern was the recordkeeping of all of the HSE specific files.	Maintenance of the google account.	The google account/drive is much appreciated to keep me organized and help whoever will follow me in this role.
Lack of member involvement.	Lack of leaders to be involved.	Further explore perks of being involved in ACTE leadership.

D. Items to be placed on the Board Agenda for Discussion

Question: For HSE, NCHSE has a very active Facebook group. Is this something I can piggyback on or start something similar?

I would have greatly benefited from a year of mentorship prior to taking on my elected position.

D. Region/Division Concerns

What are your concerns for your Region/Division specifically	What are the implications for ACTE?	In what capacity can ACTE assist in addressing this issue?
<p>Combining the work of PSAG2 with the PACE division committee without causing division.</p>	<p>Loss of membership and participation.</p>	<p>Find more opportunities to bring these two groups together to collaborate on projects.</p>
<p>Not being provided with information until well after the embarking on a new project. AKA redesign of our logo, in which we worked directly with ACTE personnel before initiating and then told that there will be a hold up as it should have been managed differently. * Wasted time.</p> <p>Being told by ACTE (at the July board meeting) that we could change the sponsorship flyer. But after designing our Vision 2022 sponsorship/donation project to reflect modifications in the plan. It took 4-5 email exchanges with ACTE to find out we could not change anything. *Wasted time once again.</p>	<p>Less Divisions that want to do anything innovative as it seems all of our ideas, even when it seems as if we have been given the okay to move forward are put to a halt- this time wasted could have been spent on working on projects we actually could have executed on. Time is limited to get all of these things done.</p>	<p>Providing clearer directions to divisions and having one designated person to work with divisions on projects who knows the answers to questions and can provide clear and concise guidance.</p>
<p>Delay in ACTE staff responding to email and questions.</p>	<p>Projects cannot move along if questions are answered in a timely fashion and when they are they are just met with more questions and now more time wasted.</p>	<p>Have a policy for a 24 hour or less turn-around for communication to division/region leaders.</p>

As a policy committee we feel it is very important to provide opportunities for our members to learn from each other, so we included these in our strategic plan. The monthly WBL Webinars include panelists that are on the front lines doing the work. We have had an overwhelming response this year and will continue to provide content that meets the needs of our members. We are also highlighting resources, best practices, and program/business partner spotlights in our quarterly newsletters.

ACTE is working to communicate and disseminate innovation at the forefront of all Regions and Divisions as an effort to support other CTE professionals around the nation. We anticipate highlighting the innovations in ACTE's publications, blogs, and webinars and other similar activities. Please highlight any recent innovative ideas within your Region or Division.

A great example of innovation in WBL is the 2152 Project

(<https://www.youtube.com/channel/UCPRRmfupuQrA93mln4KbKqA>). This is a collaboration between two WBL coordinators from opposite sides of the country (2,152 miles apart). After one of the WBL monthly webinars, these two coordinators started sharing ideas. They also talked with other WBL professionals and saw the need to share their experiences with a broader audience--and the 2152 Project was born.

This is just one example of the community that has been created with WBL Division members.

C. Succession Planning

Do you have any information you wish you had been provided during your new Board Orientation (what you know now that you wish you had known then)?

Because of how the voting process works, I was not able to attend New Board Orientation. I'm trying to learn everything as quickly as I can and am very grateful for all the wonderful people at ACTE that are willing to answer my questions and provide additional clarification. Also grateful for my board mentor that even got on a Zoom call with me when he was camping with his family.

In the future as sections become divisions, it would be nice to figure out a way to include those new division leaders in the official Board Orientation.

D. Region/Division Concerns

What are your concerns for your Region/Division specifically	What are the implications for ACTE?	In what capacity can ACTE assist in addressing this issue?

E. Items to be placed on the Board Agenda for Discussion

(Only include items that require Board discussion or action. These will be placed on the Board meeting agenda.)
