

## ACTE ORGANIZATION MEMBERSHIP FORM

Advance high quality CTE and make a positive difference in the lives of our nation's learners

This Organization Membership offers your governmental unit and its staff an cost-effective way to enhance CTE programs and promote staff professional growth. The form must be completed annually to maintain membership for all positions within the school. Pricing is determined by the number of staff participating in the program. Please note, ACTE membership is tied to the staff position and does not transfer with the individual. If your organization is located in one of the ACTE “unified” states, your unit will also gain access to additional local CTE resources, events, and networking opportunities through the state association.

The ACTE Organization Membership Form is for the benefit of a governmental unit and their staff. Your organization’s designated teachers, faculty, administrators, and career guidance and academic counselors involved in career and technical education (CTE) programs will have full individual professional member benefits if they remain in their position at the institution.

Organizations and their staff also receive the most up-to-date news and information on the CTE field through the exclusive weekly digital publication ACTE News and other electronic publications including Career Tech Update, STEM SmartBrief and more!
