

# CTE in Michigan

**35%** of Michigan jobs will require education beyond high school but less than a bachelor's degree by 2031. Career and technical education (CTE) programs prepare students for these jobs in key Michigan industries such as:

- mobility and automotive manufacturing
- life sciences and medical devices
- engineering design and development
- defense

In Michigan, CTE concentrators and completers achieve a higher median annual income compared to non-CTE students and earn more postsecondary awards.

Many students are already enrolled in CTE in Michigan, developing technical, academic and employability skills and engaging in work-based experiences with industry partners. During the 2022-23 school year, Michigan had:

**108,874**

secondary CTE participants

**113,940**

postsecondary CTE participants

These youth and adult learners in CTE programs are more engaged, graduate high school at higher rates, earn industry-recognized credentials, and have rewarding and family-sustaining careers.

CTE Concentrators

All Students

**Four-year cohort graduation rate in Michigan (2022-23)**

**27,335**

sub-baccalaureate credentials in CTE fields awarded to Michigan students (2022-23)

**FY 25 Federal Perkins CTE  
Funding for Michigan**

**\$46,700,179**

More investment is needed to scale CTE programs across Michigan to ensure that all learners have access to high-quality CTE programs in high-skill, high-wage and in-demand career fields.

*CTE: Good for Students, Good for Business, Good for Communities*
